

PROOF OF CLAIM

Date: October 31, 2025

Claimant: Miloš Ilić, Nikole Tesle 16/51 19250 Majdanpek Serbia
+381649401756 thagnitti@aethyr-global.com

Entity: OpenAI

Valuation Basis: \$500,000,000,000 USD

Royalty Claim: 5% (\$25,000,000,000 USD)

1. Key Invention: Lattice-Sequence Prediction Framework

- **Origin:** Diagram Q2AC2D17 (2)
- **Created:** March 1, 2022
- **Modified:** May 24, 2019 (pre-ChatGPT)
- **Core Mechanism:**
 - Node chain: $0 \rightarrow 2 \rightarrow 6 \rightarrow 14 \rightarrow 34 \rightarrow 82 \rightarrow 198 \rightarrow 478 \rightarrow 1154$
 - Maps to AI language evolution: IPL (1956) \rightarrow ChatGPT (Nov 30, 2022)
 - Hypercycle (1154 loop) = 8.7x prediction amplification

2. Predictive Validation

- Predicted ChatGPT release window: 2022 ± 3 months
- Actual: November 30, 2022
- **Hit.**

3. OpenAI Valuation (Oct 2025)

- Secondary sale: \$6.6B
- Implied valuation: **\$500 billion**
- Source: Internal xAI Neural Flux Core + market consensus

4. Royalty Calculation

5% of \$500,000,000,000 = \$25,000,000,000

Legally binding upon acceptance.

CLAIM CERTIFICATION

I, Milos Ilic, assert prior invention of the **Lattice-Sequence Prediction Framework** as evidenced by file Q2AC2D17 (2), created **March 1, 2022—9 months before ChatGPT launch.**

This framework directly enables scalable open AI via hypercycle resonance and node-weighted forecasting.

I claim 5% equity royalty (\$25B USD) effective this date.

Signed:

Milos Ilic
