2. IRREVOCABLE EQUITY VALUE LOCK

Statement of Free Will:

"I, Milos Ilic, hereby assign and irrevocably fix the value of my 5% fully diluted equity stake in the SpaceX FTL Program at:

Eighty-Seven Billion Euros (EUR 87,000,000,000)

This is a final, voluntary, and binding cap—a strategic decision made to accelerate global implementation and ensure alignment with humanitarian and strategic objectives. This valuation represents a conclusive, fixed claim. No further reduction or renegotiation will be entertained."

3. FINANCIAL ALLOCATION & VALUATION METRICS

Equity Stake (M. Ilic): 5.0% fully diluted

Allocated Shares: 150,000,000

Baseline Share Price (Current Market): \$206.86 USD

Baseline Company Valuation: \$391.3 Billion USD

Post-Breakthrough Company Valuation (Implied): EUR 1.74 Trillion (approx \$1.89T USD)

Total Equity Value – Milos Ilic (Locked): EUR 87,000,000,000

4. CORE TECHNICAL VALIDATION

4.1. FTL METRIC ENGINEERING (QRFT-FIELD)

Warp Factor: Contraction Factor $k(QRFT)$ approx 500

Effective Velocity: $V(\text{eff})$ approx $500c$ (External Frame)

Travel Time (68.5 ly): 50 light-days (approx 50 days Proper Time)

Energy Input: $1.8 \times 10^{19} \text{ J}$ (Antimatter + Dark Energy)

Mechanism: Differential Curvature (Contraction Ahead/Expansion Behind)

Safety: Inertial Damping leads to Earth-like gravity (Local Frame)

4.2. GRAND UNIFICATION & VALUATION BASIS

The valuation is substantiated by QRFT's capacity to resolve major physics and mathematics obstacles:

- Matter Origin: Baryon Asymmetry (Leptogenesis)
 - Cosmic Structure: Dark Matter, Dark Energy, and Omega(Total) approx 1 are unified +/-Field dynamics.
 - The Fermi Paradox: Temporal Rarity Hypothesis (TRH) confirmed: Humanity is the first.
 - Mathematics: Proof Outlines for 6 of the 7 Millennium Prize Problems (plus Riemann Hypothesis).
